Note: The drastic decline in yield during 2003-2004 is due to occurrence of heavy hailstorm and cyclone during the year. However, steps such as use of high quality planting materials, adoption of scientific techniques etc were taken and this improve the productivity very significantly. Kolasib, Serchhip and Lawngtlai Divisions existed from 2003-2004. Hence, report upto 2002-2003 for these Districts were nil.
